EXPERIENCE

EACDirectory — Junior Developer (Nov- 2019)

Developed and hosted a full-stack website with heroku and digital ocean.

Learned Git and Github platform and got accustomed to frontend development using the company's website builder platform.

Utilized my mornings, nights and weekends to learn about and gain experience in software development.

PROJECTS

Papillon — [Demo](#) [Code](#)

- My portfolio site where I document everything I learn.

- Built with React,gatsby and graphQL

Nai Blog — [Demo](#) [Code](#)

- *A modern javascript blog site with a similar Netflix theme.*
